

COMPREHENSIVE DETOX & REJUVENATION

Detoxification is hugely beneficial to not only our internal organs and skin, but also in boosting metabolism and immunity, improving brain and digestion function and restoring hormonal balance. The Comprehensive Detox & Rejuvenation program is based on medical science and holistic therapies and is recommended for experienced detoxers and those seeking an intensive health reset. Detoxifying herbal supplements and remedies complement a more rigorous program of therapies and treatments including Chi Nei Tsang abdominal massage, far infrared therapy, lymphatic drainage therapy and colon hydrotherapy. The result? A full cleanse of the colon, blood and lymphatic system, improved mental clarity, more luminous skin and radiant health.
